By Mary Ann Kantrow, President

Our first annual Kart 2 Kart event was held on Sunday February 25. This event was so successful that we will definitely make it one of our reoccurring events. Brian Bennett did an excellent job setting it up for the club but

he must not have consulted our Weather Chairman (Glenn Trapp) because the weather went from snow, rain then freezing rain that night. We had 20 people join us despite the weather, ranging from the very experienced to the not so experienced. Everyone had a good time without any "major" incidences but some of the more enthusiastic karters did get the "No Bumping" sign.

If you're like me you're waiting for this winter to end. I'm already looking forward to the new racing season. Dan and I will be traveling down to Georgia for the PCA Club race at Road Atlanta in April. Even though we won't be participating in the race with Dan's race car we will be helping Doug Brown with his Yellow 911. Our first race is in May at Mid-Ohio. The Mid-Ohio race seems very far away now but I know it will be here too soon (too many things to do on the race car). And if you think May is still far off don't be fooled. It's never too soon to schedule that time off you'll need to participate in our Driver's Education Days. The first event is planned for Tuesday, May 1st. We call this first event our "Beginner Day" when we can focus on the new drivers. Not only will you be learning the skills necessary to drive on the track you will be surprised on how this skills make your daily driving more safe (and maybe even more fun). So schedule the time off work and register for these events soon.

The next event planned is our annual Tech Session. Jim and Loretta Dunham are hosting the event again this year. Jim already has some topics that he plans to discuss (look for more details about the topics in this newsletter) but feel free to contact Jim at (734) 451-1288 or jdunham@ford.com if you want to learn more

about anything else. Our April event is the Dyno Day being organized by Matt Chapman. This is an excellent opportunity to show off the Horsepower of your Porsche. For this event you must RSVP to Matt early at 810-225-2048.

We are always looking for new ideas for "Fun" events so please don't hesitate to contact me or anyone else on the board

if you feel a sudden inspiration. Or if you want to be more involved with the club please join us at our monthly board meetings. They are usually on the first Thursday of the month. Find the time, location, and date in the newsletter.

Rally Sport Region invades Kart2Kart!!!

Text and Photo's by Brian Bennett

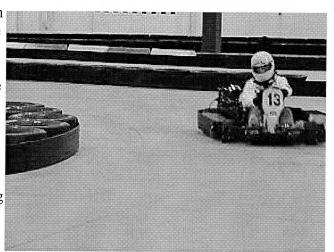

wenty adventurous souls braved some yucky freezing rain conditions (just a warmup for the on-track sessions, really ①) to attend RSR's first outing to the recently opened indoor go-cart facility Kart2Kart, on the evening of Saturday, February 24th. A lavish spread of cheesy poofs & snacky cakes greeted the group of Winter-weary fun seekers whose experience ranged from first time Karter to seasoned veteran.

The format was just open practice, with 2 run groups alternating the attack on the hardware and the track. Both groups got 3 ten minute sessions each to master their flogging technique, and I'm here to tell 'ya.....those little machines really wanna be tossed around. I found myself trail braking very deeply into some turns to help steer those fiery little 5.5HP Honda powered beasties around that quarter mile long serpent of a track, with those tiny little slicks intermittently squealing to beat the band. Yeah, bay-bee! My only incident of the night came in my first session, and was a side-to-side metal-tometal with Chris Gibson (whose driving suit really made his rear seem huge!) after the checker. No harm, no foul......1 admonition & 1 lecture. My bad. I saw a wee bit of rubbin' going on, but it's not the fast way around and most people understood that rather quickly. All in all, the consensus was that it was a whole bunch of fun, some decent seat time, and a tad tiring on the upper body. By now the weather outside turned to unfrozen rain so those of us that felt like bench racing a bit more decided that it's a whole lot more fun with a cold one in your hand, so we adjourned to a local pub.

Ok first things first. To clear up all the mistakes, booboo's, blunders, and xo*#ko. You've got to cut me some slack that was my first issue with a newborn. I can blame

it on the fact I was typing while holding her or sleep deprivation. Most likely it's the combination of the two. No—Shannon was not 11lb 7oz; she was, however, 7lb 11oz. Could you imagine me having a baby that big? Things should be a lot better this month. I'm getting more use to not sleeping and baby Shannon is getting better all the time.

I've had many members ask if they will see me on the track this season. And you can bet your britches I'll be there. With Shannon in tow, I'm sure I can get someone to hold her while I track the car (: I can't wait to uncover the "beast", (for those that don't know the beast is my 930 Turbo). It's sat long enough. I'll have to run the cobwebs out of it. It's also due for a real good cleaning. Time to dig out the waxes, polishing compounds and all the paraphernalia that goes along with it. It wouldn't hurt to show up at the tech session March 25. I always learn a trick or two attending these sessions. It will be time to put the car on the track before you know it.

Members if you are getting your car ready and realize that you're in need of some assistance please check out our advertisers. They provide services you may find yourself in

my time

need of. And they are a big supporter of the club.

Count down to track time, tick ticking away! Lori Jo
