

A Technical inspection is required for all vehicles participating in our HPDE events. While any ASE licensed mechanic/technician can perform these inspections, we recommend authorized service representatives that are familiar with these types of inspections and are more familiar with the particulars of each model. There are several independent service shops and Porsche dealers in the area that have experience with these. Please consider them when choosing to have your Tech Inspection completed. Details can be found within the pages of our *Bahn Stormer* newsletter.
